

Ergonomic Platform

Standard Platform

C O M P O S E R

The Neutral Reach Zone

# C O M P O S E R

...a revolutionary new keyboard support system that enhances your safety and comfort.

Keyboard systems have been widely embraced as the best way to encourage users to adopt low risk body postures that provide the best protection against Repetitive Stress Injuries (RSIs). Older generation keyboard systems left much to be desired in terms of comfort and usability.

**Low Risk of Injury**

Unlike older generation products, this system can not be positioned at angles that might promote RSI. Therefore, the user cannot adjust the keyboard system so that it is in a potentially harmful position.

**Effortless Adjustment**

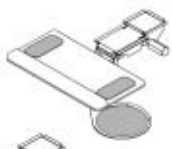

Simply tilt the front of the tray up slightly, and easily place the keyboard where you want it, with a single fluid motion. So simple — no more knobs, levers or straining. Composer is ADA-compliant.

**Total Knee Clearance**

Unlike traditional products, this innovative design gives total knee clearance. With no adjustment controls under the platform, the Composer completely eliminates painful knee bumps and clothing snags.

## ACCESSORIES

ITEM	DESCRIPTION	WORK SURFACE DEPTH	TRACK LENGTH	PRODUCT NUMBER	WT	SHIP VOL	FOB ORIG	FOB DEST
	Standard Articulating Keyboard With Wrist Rest And Rotating Mouse Pad (Non-Tilt Option)	18 - 20 "	16"	HWS-3309	12 lbs	1 cf	\$125	\$135
